ORINTA FILATOVA

Product Manager — Growth & AI Products

Belgrade, Serbia · orinta.filatova@gmail.com · Telegram @oorinta · oriinta.github.io

Summary

Product manager with 6 years in product management and consulting at P&G, Eksmo and Nielsen (clients incl. PepsiCo, J&J, Ferrero). I spent 5 years as a fintech engineer to learn to build products myself, and since 2025 have co-founded two AI products. I run the whole loop — discovery, experiments, launch, metrics — and can design, evaluate and ship LLM features hands-on (RAG, embeddings, recommendations).

Experience

Co-founder & Product Lead · Fraiven (fraiven.com) · Apr 2026 – present

- Launched an app that gets people in Belgrade out together in 4 weeks; ran in-depth interviews and customer-journey mapping, tested three MVP hooks — city catalogue, AI vibe search, group plans with new people — and repositioned around group plans; validated a commission-based revenue model.
- Grew weekly users 5.8× in 7 weeks with Instagram ads and community posts that sold concrete group plans (“archery together”, “drum circle — come and meet people”) rather than the app; 75.8% engagement rate, 20% of users reached the core action (group chat).
- Improved interest-based recommendations: the share of relevant places found rose from 38% to 96% at 96% precision (offline golden-set test) after switching from category- to item-level embedding matching.

Co-founder & Product Lead · Eliryn (eliryn.world), non-profit project · Jul 2025 – Apr 2026

- Built free AI coaching games, moving from a Telegram bot to an SEO web app; cut friction with AI request-to-game matching and play without sign-up.

Senior Java Developer · Raiffeisen Bank, Tinkoff, Central Bank of Russia · Dec 2020 – Jul 2025

- Built trading-risk, FX-conversion (100+ operations/s) and regulatory systems; sped up key calculations 16–40×; was the FX team’s de-facto delivery manager.
- Created a control tool with alerting for SOFR / ESTR / EFFR rates (T-1 / T-2 lags), so data was ready before tax and accounting runs; cut ~1 hour of daily manual checks to incidents only.

Consultant / Analytics Team Lead · Nielsen · May 2017 – Nov 2019

- Led ~10 marketing-mix-modelling projects for PepsiCo, J&J, Ferrero, Essity (Zewa) — a new brand every ~3 months: advised on splitting budgets across media, trade, pricing and promo to raise ROI, and on whether price increases would pay off.
- Owned model quality: validated regressions (R^2, p-values, variable selection, spurious correlations) before client delivery; wrote validation guidelines adopted as the product standard; managed analysts in Russia and India.

Product Manager · Eksmo Publishing · May 2015 – May 2017

- Created the Smashbook line from zero and grew it to 20+ SKUs and 200,000+ items sold in 14 months on a ~$4K budget, through bloggers, communities, a brand character and school contests.
- Ran trade marketing and promotions for travel guides and books: a fixed-price campaign lifted sales 43% across ~100 stores; 2,000+ POSM units in 7 regions.

Product Manager · Procter & Gamble · Oct 2013 – Jul 2015

- Managed 5 fragrance brands (~RUB 715M net sales), grounding positioning in consumer interviews and shopper-journey research; led the bruno banani launch to 105% of target in a declining category.
- Ran 360° launches — TV, print, digital partnerships, PR, trade promotions in L’Etoile, Rive Gauche, Magnit: 56M+ impressions, CTR 4.8× the previous launch.

Skills

Product & growth: experimentation · activation / retention metrics · funnel analysis · discovery, in-depth interviews & customer-journey mapping · go-to-market & launches · pricing & monetisation · paid social, SEO, community & influencer acquisition · roadmapping

AI & data: LLM features · RAG · embeddings & recommendations · offline evaluation (precision / recall) · MCP · GA4 · SQL · regression analysis (R^2, p-values, elasticities) · marketing-mix modelling

Engineering & delivery: Java / Spring · Python · DevOps (Docker, Kubernetes, CI/CD) · Agile / Scrum · full SDLC · QA & UI/UX testing · stakeholder & risk management

Education & languages

HSE University — MSc Strategic Marketing, product-management focus (2015), BSc Management (2013) · Russian (native) · English (C1) · Serbian (A2)
